## Inspector Observations:

This is a follow up inspection regarding found rodent droppings throughout the facility in non-preparation areas during complaint investigation on 8/30/2019. Refer to CO0070298. Facility is closed due to the following:

-  
Observed rodents droppings inside of the pizza oven that was in use at the time of the inspection. Rodent droppings were also observed throughout the facility in the following areas: a) in between the boxes and the bags of the flour stored on the elevated floor shelf. b) along the cove base behind the soiled linen basket. c) inside of the pizza oven racks beneath the rotating belt d) inside of bin containers where clean and sanitized utensils were stored. All contact surfaces of equipment/utensils/and storage areas need to be thoroughly cleaned and sanitized. Once the facility is cleaned and sanitized, contact our department for a re-inspection. Contact I.Goodman at IGoodman@rivco.org or at (951) 273-9140.

Observed the pizza oven to be soiled with heavy accumulation of grease and food debris. Properly clean and sanitize the pizza oven in an approved manner. The pizza oven has been impounded at this time due to the found rodent droppings inside of it. Discontinue use of pizza oven until approved by our department for use. Impound sticker posted. A re-inspection is scheduled for 9/9/2019. Contact I. Goodman or B. Lopez at (951) 273-9140 once pizza oven is thoroughly cleaned and sanitized.

The facility is placed on a structural upgrade. Facility was previously instructed to upgrade using approved flooring throughout the facility.

Complete the following within 30 days (10-3-2019):

- Replace electrical outlets where cracked or where outlet cover is missing (restroom).
- Properly seal holes in the FRP wall paneling at the dry storage area.
- Secure escutcheon plates to wall at the mop sink faucet.
- Properly seal the juncture between FRP wall paneling and cove base tiles throughout the facility.
- Replace torn/ broken flooring cover for piping at the floor by the dry storage area.
- Remove existing deteriorating caulking and properly recaulk the hand sink to the wall.
- Properly seal around capped piping below the handsink.
- Replace bent vent louver where fans are located at the walk-in cooler using approved materials.
- Secure loose restroom vent cover to ceiling.
- Replace deteriorated door casings interior of the restroom.

Complete the following within 90 days (12-3-2019):

- Replace cracked mop basin with approved type. See construction guidelines.
- Replace deteriorated splashguard at the mop sink with approved material ensuring the splashguard is a minimum height of 6 feet.

At this time, facility is observed with pizza conveyer oven with a Type II hood. Staining around the ceiling panels observed. Clean and maintain the surrounding ceiling panels around hood and inside the hood. Will consult with plan check on requiring air balance report or upgrade facility to Type I hood. Facility file to be reviewed.
